EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Charles Wolfe, Jr. on 1 July 2004.

The application has been amended as follows:

In claim 8, line 2, "lower guideway is adjustably engaged to the stable support." has been deleted and --one of the stable supports is adjustably positionable-- has been inserted.

In claim 39, lines 1 and 2, "the first end of the lower guideway is adjustably engaged relative to the pole." has been deleted and --one of the poles is adjustably positionable.-- has been inserted.

NOTE: The above changes have been made to overcome informalities, in order to put this application in condition for allowance.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: claims 2-5, 7-19, 28-30, 32-48 are allowable over the prior art of record, because the prior art does not show or suggest the combination of an apparatus having an inclined upper guideway, a generally inclined or horizontal lower guideway, a substantially inelastic reciprocating means connected to an freely moveable along the upper and lower guideways, a ball connected to the reciprocating means, a first and second upstanding stable support connected to either end of the upper and

lower guideways, and wherein the lower guideway between the first and second upstanding stable supports is slack when the ball is at rest.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
